

REVOLUTIONARY ENERGY STORAGE CYCLE WITH CARBON FREE ALUMINIUM

Dear REVEAL subscribers, thank you for following our project. We are very excited to be releasing our second Newsletter and sharing the latest news of our project with you!

INTRODUCTION VIDEO

We released our introduction video created by our partners from [FENIX TNT](#) explaining the REVEAL project. You can watch it on our [Youtube channel](#), so don't forget to like, share and subscribe, so you can catch the next one!

ENERGY INNOVATION MAGAZINE

Our project was featured in the European Energy Innovation Magazine Spring 2023 edition! The article "REVEAL – Revolutionary energy storage cycle with carbon-free aluminium" was written by our partner Zuzana Tafáková from [FENIX TNT](#), project coordinator Pål Åmason from [Taeknisebur](#), and project technical coordinator Michel Haller from [OST](#).

This article sheds light on the groundbreaking solutions and innovative approach that the REVEAL project is set to achieve in the field of renewable energy storage. Download it now below.

FIRST ADVISORY BOARD MEETING

The first Advisory Board meeting was an important milestone for the REVEAL project. Led by our project coordinator Pål Åmason, the meeting included an overview of the project and objectives, and our promotional video showcasing its potential impact. Our technical coordinator Michel Haller gave a detailed presentation on the project concept and work plan, followed by all work packages being presented by their leaders.

The Advisory Board members actively engaged, raising questions that were addressed by the project team. The meeting ended positively, providing valuable feedback and demonstrating commitment to the project's success.

NEWS & EVENTS

Visit our [News & Events](#) page on our website so you don't miss any project news that is updated **every week!**

Our partners from [OST](#) participated in the "Energy Storage Workshops" on the 17th of May organized by the [Swiss Engineering Section Zurich](#) together with the [SwissCleartech business association](#) as part of the "Switzerland Climate Neutral 2050" series of events.

Recently, our partner [Rauan Meirbekova](#) delivered an insightful presentation on the REVEAL project to high school students interested in recycling projects. The students are participating in [NordPlus](#), a project for students and educators interested in expanding their knowledge.

Read about us, the REVEAL project, as the multinational collaboration forming the basis to reveal the full potential of aluminium as long-term energy storage in an [Interview by SwissCore](#) with our technical coordinator Michel Haller on how aluminium could help to fight climate change by closing the winter gap.

On the 11th of January, the official **M6 General Assembly meeting** was held in Dolinstein, Germany. Each work package was presented and future steps were discussed. The meeting was held at the [RATIO THERM](#) facility. The meeting finished with an informative tour of the premises. Check our [gallery](#) for more.

UPCOMING MEETING IN JUNE

We look forward to the upcoming **M12 General Assembly meeting**, set to take place in the charming city of Ljubljana on June 27-28. We eagerly anticipate this gathering where we can assess our progress, discuss the next steps, and foster stronger collaboration.

Thank you for your ongoing commitment to the REVEAL Project.
See you in Ljubljana!
